

Confidence For Life

Use of student images

@ RPS

At Research Primary School students will be involved in a range of activities that may be used for a variety of display, promotional and advertising purposes. These activities might include regular classroom tasks and projects or special school events such as Japanese Day, sporting events, grade 6 graduation, camps and excursions.

The work that children and staff produce whilst engaged in school life may include printed material, art works, photographs, videos, DVDs, podcasts and CD recordings.

Most often this material is used for internal, school based use and viewing. Increasingly however there are opportunities for more general and wider viewing audiences to be sought. These may include the school newsletter, newspapers, television media, school promotional materials and the internet.

Our school web-site may provide a wonderful opportunity for students to be able to showcase their work. Our web-site may include classroom projects, artwork, school excursion reports, photographs and video material produced by the students.

In using students work and images in these external media we will ensure that students will be identified by first name only.

To support staff in their work we require all parents to complete the authorisation form below. If you have any further questions please contact Julie Minarelli.

Please note – this form covers the duration of the child's schooling at Research Primary School. Please inform the school if guardianship/custody changes for your child, as this form will need to be re-signed to reflect these changes. Please inform the school in writing if you no longer wish to provide consent for the use of your child's images and works in the manner described.
