

First Aid Policy (includes arrangement for ill students)

Purpose

To ensure the school community understands our school's approach to first aid for students.

Scope

First aid for anaphylaxis and asthma are provided for in our school's:

- *Anaphylaxis Policy*
- *Asthma Policy*

Policy

From time to time Research Primary School staff might need to administer first aid to students at school or school activities.

Parents/carers should be aware that the goal of first aid is not to diagnose or treat a condition.

Staffing

The Principal will ensure that Research Primary School has sufficient staff with the appropriate levels of first aid training to meet the first aid needs of the school community.

Research Primary School trained first aid officers are:

- Jacqueline Smith 15/03/22
- Carol Warren 15/03/22
- Jocelyn Watts 15/03/22
- Catherine Burne 2022

First aid kits

Research Primary School will maintain:

- A major first aid kit which will be stored in the first aid room
- 3 portable first aid kits which may be used for excursions, camps etc. The portable first aid kits will be stored in the first aid room
- The first aid officers will be responsible for maintaining all first aid kits, ensuring they are managed in accordance with the Department's policy and guidance on first aid kits – refer to [First aid kits](#)

Care for ill students

Students who are unwell should not attend school.

If a student becomes unwell during the school day they may be directed to general office/sick bay and monitored by staff. Depending on the nature of their symptoms, staff may contact parents/carers or an emergency contact person to ask them to collect the student.

Our school follows the Department's policy and guidance in relation to our sickbay area to ensure it is safe, hygienic and appropriately equipped: [First aid rooms and sick bays](#).

First aid management

If there is a situation or incident which occurs at school or a school activity which requires first aid to be administered to a student:

- Staff who have been trained in first aid will administer first aid in accordance with their training. In an emergency situation, other staff may assist in the administration of first aid within their level of competence.
- In a medical emergency, staff may take emergency action and do not need to obtain parent/carer consent to do so. Staff may contact Triple Zero "000" for emergency medical services at any time.
- Staff may also contact NURSE-ON-CALL (on 1300 60 60 24) in an emergency. NURSE-ON-CALL provides immediate, expert health advice from a registered nurse and is available 24 hours a day, 7 days a week.
- If first aid is administered for a minor injury or condition, which is not on the head, Research Primary School will notify parents/carers by sending a note home to parents/carers, email, or phone call. Parent/carers will be notified for all head injuries
- If first aid is administered for a serious injury or condition, or in an emergency situation, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practical.
- If staff providing first aid determine that an emergency response is not required but that medical advice is needed, school staff will ask parents/carers, or an emergency contact person, to collect the student and recommend that advice is sought from a medical practitioner.
- Whenever first aid treatment is administered to a student resulting from a student incident, injury or illness, Research Primary School will:
 - Record minor injury in first aid log
 - Record major injury in first aid log and on Edusafe
 - Send home a note for a head injury
 - if care was provided in response to a medical emergency or reportable incident, follow the Department's [Reporting and Managing School Incidents Policy](#), including reporting the incident to the Department's Incident Support and Operations Centre on 1800 126 126 where required to under that policy.

In accordance with Department of Education and Training policy, analgesics, including paracetamol and aspirin, will not be provided as a standard first aid treatments. This is because they can mask signs

of serious illness or injury. For further information refer to the Department's Policy and Advisory Library: [Medication](#)

Communication

This policy will be communicated to our school community in the following ways

- Available publicly on our school's website
- Included in staff induction processes and staff training

Further Information and Resources

This policy should be read in conjunction with the following Department policies and guidelines:

- [First Aid for Students and Staff](#)
